# ABOUT US

**HAGI PLAST** has been operating in the construction materials sector for many years and aims to offer the highest quality products, the most advantageous prices and the shortest delivery time by prioritizing customer satisfaction. Hagi Plast is offering products in 3 different sectors: Iron & Steel, Construction Materials and Raw Materials.

As Hagi Plast, we follow new technologies and offer products that provide superior quality and customer satisfaction to the market.

With our production of steel flanges and fittings up to DN3000 diameter, we become a solution partner for our customers in their projects.

In addition, we provide our customers with the supply of plastic and steel pipes, fittings, valves, raw material, Steel sheets & coils, forklifts and many different products, enabling our customers to meet all their needs through a single supplier.

## VISION & MISSION

Hagi Plast is known worldwide for its wide product range, superior quality, professional and punctual customer-oriented service, definite delivery times and after-sales service!

With our professional purchasing and sales team, we supply all the products that our customers need in their projects by making them into packages, and we also provide logistics services. Currently, we are exporting to more than 10 countries and we are also supplying products to different projects domestically. In this sense, our mission is to invest in the international arena and ensure the continuous growth of our company.

# **SUPERSTRUCTURE GROUP**

**PP-R PIPES & FITTINGS**

# PP-R STANDARD PIPE

PP-R pipes are withstand higher operating pressures at extreme temperatures, higher flow rates and resistance to chlorine. Polypropylene material has very high impact resistance.

PP-R piping system use for hot and cold water distribution in buildings, floor and central heating and air conditioning.

## COMPARASION WITH STEEL PIPE

Corrosion and scaling can reduce the inside of steel pipes by an average of 3% per year, resulting in lost efficiency and up to 10% increased pumping energy annually. This can add up to thousands of dollars in hidden energy costs over the life of the system.

## ADVANTAGES

- It can be used between 5°C – 95°C.
- Operation pressure: 20 bars at 20°C and 10 bars at 90°C.
- High resistant againts corrosion, tuberculation, deposits.
- Can be used in drinking water systems.
- Restriction doesn't occur in its welding places. It has high welding performance.
- Taste, color and scent of the water doesn't change.
- Resistance to chlorine and chloramine disinfectants.
- It makes savings in montage process.
- Typically reduced product and installation costs as compared with metallic piping systems.
- Resistant to chemicals.
- It has smooth inner surface.
- Long service life.
- It is resistant to freezing in cold weather.
- Soundproof.

## USAGE AREAS

- Hot- and cold-water plumb bing distribution, residential and commercial,
- Drinking water line installation systems, Hydronic distribution to radiators, convectors, fan coils, chilled beams,
- Underfloor & central heating systems,
- Air ducts or if applicable for other use in industry systems,
- Reclaimed water collection and distributio
- Agriculture systems,

# PP-R FIBERGLASS PIPE

## ADVANTAGES

- Resistant to acid and chlorine.
- It can be used between 5°C – 95°C.
- Operation pressure: 20 bars at 20°C and 10 bars at 90°C.
- High resistant against corrosion, tuberculation, deposits.
- Can be used in drinking water systems.
- Restriction doesn't occur in its welding places. It has high welding performance.
- Taste, color and scent of the water doesn't change.
- Resistance to chlorine and chloramine disinfectants.
- It makes savings in montage process.
- Typically reduced product and installation costs as compared with metallic piping systems.
- Resistant to chemicals.
- It has smooth inner surface.
- Long service life.
- It is resistant to freezing in cold weather.
- Soundproof.

## USAGE AREAS

- Drinking water line installation systems
- Suitable for hot and cold water transfers in buildings systems
- Underfloor & central heating systems
- Air ducts or if applicable for other use in industry systems
- Agriculture systems

DN - Nominal Diameter

WT - Wall Thickness

## USAGE AREAS

- Apartment Buildings, Hotels, Residential Complexes
- Sewage and waste water discharge systems.
- Electrical and communication systems.
- The belowground and aboveground waste Water transport systems

## • ADVANTAGES

- Easy installation and handling.
- Glue socket connection system
- Light weight.
- Smooth surface and gloss.
- Wide range of standard molded fittings.
- High impact resistance.
- Low pressure loss.
- Long service time.
- More color options.
- High chemical and abrasion resistance.

**PP SEWAGE PIPE & FITTINGS**

# PP SEWAGE PIPE

The PP pipes appropriate for domestic sewerage systems together with the coupling sleeves are intended to be used for the removal of all kinds of waste water. Assembly of the pipeline is extremely easy, pipes are connected to one another with fitips while complete seal is achieved with use of rubber bands. PP Sewage pipe has resistant to aggressive environment thanks to its high physical and mechanical features. Unlike analogous PVC pipes, these features make the sewerage pipes more resistant to breakage.

Maximum temperature of application is +90 °C. Pipes are resistant to salt water, alcohol, acids, alkalis, sulphates, aggressive gas and all kinds of detergents. On the other hand, they cannot be used for the transport of water which contains hiph percentage of benzine (petrol) or acetone.

The PP sewape pipes and fittings are made of high quality white and grey granular polypropylene on German equipment.

# **SUPERSTRUCTURE GROUP**

**PP SILENT SEWAGE PIPE  
& FITTINGS**

## PP SILENT PIPE

The PP Silent Pipe soundproof indoor sewage system is a complete system of pipes and fittings made of mineral-enhanced polypropylene. The PP Silent Pipes has been tested in the Fraunhofer Institute, Stuttgart, according to EN 14366 standard and proved positive test certificate as 15 dB in 4,0 liters flow rate. In addition, a fireproofing test was carried out in an independent laboratory according to the DIN 4102 standard and a positive test result was obtained.

Inspection is easy, as the internal surface is smooth.

The pipes are manufactured in the co-extrusion process, which allows for the creation of a molecularly bound solid layer. The fittings are manufactured by injection moulding. Thanks to the use of polypropylene and the special wall structure design, this system meets all the requirements imposed on modern sewage systems, namely: safety, resistance to damage and long-lasting durability!

The PP Silent Piping system is available with the diameters of 50, 75, 110, 125, 160 and 200 mm. The combination of the material composition and wall thickness ensures a very high degree of sound insulation, since the noise level is as low as 15 dB. Lip seals made of a rubber-based compound are used to connect the system components with one another.

As the pipes are lightweight, their installation is easy. Thanks to the smooth inner surface of each pipe, waste water encounters little resistance as it is drained, which even if the conduit gradient is extremely slight prevents deposits from forming. Consistently, no sewage putrefaction occurs in the pipes, which thus remain unclogged.

**CLAMP**

# PIPE CLAMP WITH NUT (SET)

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## PROPERTIES

- Clamp with nut set is packed with adaptor triphone and plastic dubel
- Material: Steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Welding Points: The conic nuts are welded by spot-welding automation machines
- Easy and safe assembly through two side screws

| Size         | Breaking (kN) | Recommended Load (kN) |
|--------------|---------------|-----------------------|
| 1/4" - 1"    | 3.9           | 1.3                   |
| 1 1/4" - 2"  | 4.8           | 1.6                   |
| 3" - 4"      | 6.9           | 2.3                   |
| 4 1/2" - 10" | 7.8           | 2.6                   |

# PIPE CLAMP WITH NUT (NO RUBBER)

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## FEATURES

- Two kinds are produced as M8 and M10 Nut based on the diameter of the clamp
- Material: steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Welding points: The conic nuts are welded by spot-welding automation machines
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers

| Size         | Breaking (kN) | Recommended Load (kN) |
|--------------|---------------|-----------------------|
| 1/2" - 1"    | 3.9           | 1.3                   |
| 1 1/4" - 2"  | 4.8           | 1.6                   |
| 3" - 4"      | 6.9           | 2.3                   |
| 4 1/2" - 10" | 7.8           | 2.6                   |

## PIPE CLAMP WITH NUT

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## FEATURES

- Clamp with nut set is packed with adaptor triphione and plastic dubel
- Material: steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Welding points: The conic nuts are welded by spot-welding
- automation machines
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers

## PIPE CLAMP WITH COMBI NUT

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## PROPERTIES

- The combi nut is suitable for M8 and M10 thread
- Material: Steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Welding Points: The conic nuts are welded by spot-welding automation machines
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers

## PIPE CLAMP WITH TRIPHONE – SHORT

### USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

### PROPERTIES

- Plastic plug should be used for fixing
- Material: Steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Welding Points: The conic nuts are welded by spot-welding automation machines
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers

# PIPE CLAMP WITH TRIPHONE (NO RUBBER) - SHORT

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## PROPERTIES

- Plastic plug should be used for fixing
- Material: Steel
- Reinforced structure provide higher durability
- Coating: Zinc plated (Electro-galvanized)
- Welding Points: The conic nuts are welded by spot-welding automation machines
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers

# HEAVY DUTY PIPE CLAMP

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Meets the requirements of DN 4109
- Additional two nut applied to the side screws

| Size         | Breaking Load (kN) | Recommended Load (kN) |

# SILENT PIPE CLAMP WITH NUT (VERTICAL)

## USAGE AREAS

- Fixing for PVC silent pipes
- Used to fasten the pipes by mounting them on the walls vertically
- Used in waste water systems

## PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Meets the requirements of DN 4109.
- It provides silence in addition to the sound level of 8 - 11 dBA by using with waste water pipes which produced with the silent PVC pipe feature
- In vertical assembled silent pipe waste water installations
- Used to prevent temperature loss in hot or cold water installations.

| Size | Breaking Load (kN) | Recommended Load (kN) |

# SILENT PIPE CLAMP WITH NUT (HORIZONTAL)

## USAGE AREAS

- Fixing for PVC silent pipes
- Used to fasten the pipes by mounting them on the walls vertically
- Used in waste water systems

## PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Meets the requirements of DN 4109.
- It provides silence in addition to the sound level of 8 - 11 dBA by using with waste water pipes which produced with the silent PVC pipe feature

| Size | Breaking Load (kN) | Recommended Load (kN) |
|------|--------------------|-----------------------|
| Ø50  | 4.8                | 1.6                   |

## SILENT PIPE CLAMP WITH STAND

### USAGE AREAS

- Fixing for PVC silent pipes
- Used to fasten the pipes by mounting them on the walls vertically

### PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Meets the requirements of DN 4109.
- Assembly through wall plates
- Provide adjustable distance between pipe and wall

| Size | Breaking Load (kN) | Recommended Load (kN) |
|------|--------------------|-----------------------|
| Ø50  | 4.8                | 1.6                   |

# SILENT PIPE CLAMP WITH TRIPHONE (VERTICAL)

## USAGE AREAS

- Fixing for PVC silent pipes
- Used to fasten the pipes by mounting them on the walls vertically
- Used in waste water systems

## PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Rubber: EPDM
- Meets the requirements of DN 4109.
- It provides silence in addition to the sound level of 8 - 11 dBA by using with waste water pipes which produced with the silent PVC pipe feature
- In vertical assembled silent pipe waste water installations
- Used to prevent temperature loss in hot or cold water installations.

| Size | Breaking Load (kN) | Recommended Load (kN) |

# ITALIAN TYPE PIPE CLAMP (SET)

## USAGE AREAS

- Fixings for Steel, Stainless Steel, PPR, PVC, Cast, Iron, PE, Copper pipes.
- Used to fasten the pipes by mounting them on the walls, ceilings, and floors horizontally or vertically.

## PROPERTIES

- Material: Steel
- Coating: Zinc plated (Electro-galvanized)
- Easy and safe assembly through two side screws
- Side screws are protected against loss during assembly with the help of plastic washers
- Welding Points: The conic nuts are welded by spot-welding automation machines
- Two kinds are produced as M8 and M10 Nut based on the diameter of the clamp

# STEEL RAIL

## PROPERTIES

- Material: Pre-Galvanized Steel
- Continuous hole pattern, designed for centre distance of sanitary armature
- Universal system for fixing to pipe or sanitary equipment.

| Width  | Length | Thickness |
|--------|--------|-----------|
| W (mm) | L (mm) | S (mm)    |
| 50     | 500    | 2         |
| 50     | 1000   | 2         |
| 50     | 2000   | 2         |
| 50     | 500    | 2         |
| 50     | 1000   | 2         |
| 50     | 2000   | 2         |

# C PROFILE

## PROPERTIES

- Material: Pre-Galvanized Steel
- Coating: Available zinc. plating on demand
- For a quick and easy fixing, continuous perforation, a continuous graduated centimetre scale on two sides

| Width  | Height | Length | Thickness | Distance | Holes Dimentions | Holes Dimentions | Holes Dimentions |
|--------|--------|--------|-----------|----------|------------------|------------------|------------------|

## BOLT DIN 933

| Size | Length<br>L (mm) | Weight<br>(gr) |
|------|------------------|----------------|
| M    |                  |                |
| M5   | 15               | 3.12           |
| M5   | 30               | 5.11           |
| M6   | 15               | 4.76           |
| M6   | 30               | 7.51           |
| M8   | 15               | 10.35          |
| M8   | 20               | 12.3           |
| M8   | 25               | 12.9           |
| M8   | 30               | 15.5           |
| M10  | 15               | 18.2           |
| M10  | 30               | 26.2           |
| M10  | 40               | 31.2           |
| M10  | 50               | 36.2           |
| M12  | 30               | 37.7           |
| M12  | 45               | 48.5           |
| M16  | 30               | 76.9           |
| M16  | 45               | 97.1           |

## ADAPTOR TRIPHONE

| Size    | M<br>(mm) | L<br>(mm) |
|---------|-----------|-----------|
| M8X50   | M8        | 50        |
| M8X80   | M8        | 80        |
| M8X100  | M8        | 100       |
| M8X120  | M8        | 120       |
| M10X80  | M10       | 80        |
| M10X100 | M10       | 100       |
| M10X120 | M10       | 120       |
| M12X80  | M12       | 80        |
| M12X100 | M12       | 100       |
| M12X120 | M12       | 120       |

# DROP-IN ANCHOR

## PROPERTIES

- Material: Steel
- Usage: It is suitable for the assembly by the normal bolt and stab used in the assembly of medium and heavy loads to concrete.

| Drill Diameter<br>(mm) | Size<br>(m) | Length<br>(mm) | Pull Load<br>(mm) | Tightening Torque<br>(mm) | Hole Depth<br>(mm) |
|------------------------|-------------|----------------|-------------------|---------------------------|--------------------|
| 8                      | M6          | 25             | 350               | 12                        | 25                 |
| 10                     | M8          | 30             | 500               | 15                        | 30                 |
